

## Welcome!

**EP CONSULTANTS** (EPC) was founded in 1994 and is a broad-based environmental consulting firm that offers the **highest quality of service at the lowest possible cost**. Service areas include:

- *Clean Air Act*
- *Superfund*
- *Resource Conservation and Recovery Act*
- *Process engineering*
- *Environmental engineering*
- *Compliance services*

Our team of chemical engineers, meteorologists, civil engineers, environmental specialists, and safety professionals is uniquely qualified to support facilities located in Southern California based on five key factors:

- **STRATEGIC:** EPC is typically a strategic partner to our customers, developing the **optimal compliance strategy** while satisfying business needs and maintaining operating flexibility.
- **LOCAL:** EPC is a local consulting firm with specific expertise in all areas of environmental management including air quality permitting, hazardous waste management, risk assessment, regulatory negotiations, and specialized studies to support **individual facility needs**.
- **FAMILIAR:** Our team has **successful working relationships** with local agencies, and we have experience in meeting the **multi-media environmental compliance needs** of local customers.
- **COST-EFFECTIVE:** Because our professionals are independent consultants, we maintain **low overhead** and extremely competitive professional labor rates.
- **RESPONSIVE:** Because EPC is comprised of independent consultants, we are able to provide **quick turn-around** to meet facility scheduling needs.

EPC's mission is to provide clients with qualified resources on a project-specific basis. EPC is owned and managed by **Mr. Anu Sood, P.E., R.E.A., C.P.P.** Mr. Sood is a California-registered professional chemical engineer with over fifteen years of engineering and environmental consulting experience.

EPC would appreciate the opportunity to be of service to your facility. If you have any questions or comments, **please call us at (310) 541-5407**.

## A new way of doing business...

**EP CONSULTANTS** is a broad-based environmental consulting company that offers the highest quality services at the lowest possible cost. We offer a broad range of consulting experience to meet your environmental needs and provide you with total project control. Our service areas include:

- *Clean Air Act*
- *Superfund*
- *Resource Conservation and Recovery Act*
- *Process engineering*
- *Environmental engineering*
- *Compliance services*

Our mission is to serve regulated industry directly or through arrangements with well-known consulting firms to provide the end user with the most qualified resources on a project-specific basis. Our clients have noted a number of benefits of using EP Consultants for staff extension:

- *On-time and on-budget execution.* Contracts based on fixed delivery of project or task work products.
- *Security.* Contract with confidentiality agreements, non-compete clauses, and attorney-client work product provisions.
- *Enhanced profitability.* Extremely competitive rates because of minimal overhead. Rates are negotiable based on work volume.
- *On-demand resourcing.* Use when needed for business surges or specific technical capabilities, as a no-cost staff extension. No downtime overhead.
- *Total project control.* Pay for work upon satisfactory completion.
- *Reduced overhead/paperwork.* With temporary resources provided by a contractor, there is no overhead cost for our clients related to hiring an employee.
